

“WATERPROOFING”

At Fibrex, our mission is to focus ourselves towards becoming leader, in developing huge range of innovative solutions for construction industry with every aspect for improving the durability, efficiency, quality and the visual changes that can take place in buildings, infrastructure, facilities, throughout production and use, and in turn making a significant contribution to sustainable development.

Current market is focusing on the products based on advanced & sustainable technology. Our R&D team, is continuously working on the development of these products with a mission to develop global level concepts with sustainable solutions that maximize environmental presence & higher quality parameters in all our products.

Fibrex Construction Chemicals Pvt. Ltd., an ISO 9001-2015 certified Company is engaged in offering a wide range of Chemicals and Additives to meet requirements of construction, automotive, cement and other industries. Our product range includes

Floor Hardeners, Epoxy Flooring & Coatings, Grouts, Waterproofing Coating, Waterproofing Admixtures, Joint Sealants, Repair Compounds, Curing & Sealing Compounds, Admixtures, Tile Grouts /Adhesives & Corrosion Protection Coatings.

Our waterproofing products includes –

FIBELASTIC (PU) SPRAY APPLIED WATERPROOFING The product is a one component Hybrid liquid applied elastomeric membrane which can be sprayed or hand applied, made up of special PU aliphatic polymer systems to form a tough impervious membrane.

SPRAY APPLIED WATERPROOFING

PRECAST JOINTING SOLUTION

FIBFLEX (GEOMAT): Waterproofing tape/ flashing for constructions joints.

FIBFLEX (GEOMAT) is ready to use water proofing Tape especially developed for Precast Joint Treatment is highly recommended to waterproof the External Joints in Precast concrete.

FIBFLEX (GEOMAT)

“WATERPROOFING”

EXPANSION JOINT WATERPROOFING TAPE

FIBFLEX (EP) TAPE has specially being designed to completely water tight all types of expansion joints having high ability to accommodate structural movements.

FIBFLEX (EP) TAPE

FIBWEATHER (High-end exterior acrylic elastomeric paint)

A unique elastomeric high build coating based on a revolutionary acrylic polymer with quick-set capabilities to resist premature moisture attack.

FIBWEATHER

FIBELASTIC SAM - Liquid applied elastomeric membrane

One component reactive liquid applied elastomeric membrane which can be sprayed or hand applied, made up of special polymer systems to form a tough impervious membrane.

FIBELASTIC SAM
